

PARVEEN KUMAR

Web Developer | Frontend Engineer — HTML, CSS, JavaScript, React, Next.js, TypeScript

Patna, Bihar, India | +91 7527975589 | Parveen_24a12res426@iitp.ac.in

LinkedIn | GitHub | Portfolio

Professional Summary

Web/Frontend Developer with 1+ year of experience building responsive, data-driven dashboards and internal tools using HTML, CSS, JavaScript, React, Next.js, and TypeScript. Skilled in cross-functional collaboration with data specialists, backend engineers, and product stakeholders to translate complex datasets into clear, functional web interfaces. Experienced in end-to-end project execution, stakeholder management, writing clear technical documentation and configuration guides, and testing interfaces across devices for consistent performance. Comfortable working independently in fully remote settings while staying disciplined with tasks and deadlines. Proficient with Git version control and Agile/Scrum workflows, with a preference for clean, predictable, maintainable code over complex or experimental solutions.

Technical Skills

Languages: JavaScript, TypeScript, Java

Frontend: HTML, HTML5, CSS3, JavaScript (ES6+), React, Next.js, Tailwind CSS, Responsive Web Design, Component-Based Architecture, Accessibility (WCAG), Data Visualization, Dashboard Development

Tools & Practices: Git, GitHub (Version Control), CI/CD Fundamentals, Postman, Figma, Agile, Scrum, Technical Documentation, Remote Collaboration

Core Competencies

Cross-Functional Collaboration · Project Execution · Stakeholder Management · Technical Documentation · Data Visualization · Dashboard Development · Remote Collaboration · Version Control (Git) · Clean & Maintainable Code · Agile/Scrum

Work Experience

- Yuktisoft Infotech LLP** Jan 2025 – Jul 2025
Frontend Developer Intern *Remote*
 - Engineered and delivered 15+ reusable React/Next.js UI components with TypeScript and Tailwind CSS using a shared design-system approach, reducing new feature development time by approximately 25%.
 - Integrated 10+ REST APIs into enterprise dashboards, translating complex backend datasets into clear, functional web interfaces with centralized error handling and request caching.
 - Tested user interfaces across multiple devices and browsers to ensure consistent, reliable performance; resolved 20+ production issues and reduced initial bundle size by approximately 30% through lazy loading and route-based code splitting.
 - Improved state management by migrating key modules from prop drilling to React Context API with custom hooks, reducing unnecessary re-renders by around 40%.
 - Practiced cross-functional collaboration and stakeholder management by partnering daily with backend engineers, QA engineers, and product stakeholders through Agile/Scrum workflows, peer code reviews, and Git to deliver production-ready features on schedule.
 - Drafted clear technical documentation and configuration guides explaining component structure and API contracts, and supported internal reviews to ensure all web components met team standards for reliability and clarity, improving overall project execution.

Projects

- NirmaanSetu — Data Dashboard Platform | Next.js • React • TypeScript • Spring Boot • GitHub**
 - Executed end-to-end project delivery of 25+ responsive pages and reusable UI components, building data visualization dashboards using React, Next.js, TypeScript, HTML, CSS, and Tailwind CSS.
 - Designed a reusable component library with role-based rendering, eliminating duplicate UI code across contractor, supplier, and architect dashboards.
 - Implemented JWT authentication and role-based route protection for secure REST API integration.
 - Optimized API fetching through response caching and memoization, reducing redundant network calls and improving perceived load time by approximately 35%.

Education

- Indian Institute of Technology (IIT) Patna** Expected Jul 2027
B.S. in Computer Science & Data Analytics *Patna, Bihar*

Relevant Coursework: Data Structures, DBMS, Operating Systems, Computer Networks, Software Engineering, System Design

Achievements

- Secured 2nd Position in Model Combat at Xenith 2025, IIT Patna.
- Participated in Hack N Tech 2.0 (Xenith 2025).
- Participated in the Campus Immersion 2025 Sports & Cultural Activities Program, IIT Patna.
